

STREAMLINE® Panel Diffuser

with Composite Resin Piping

Designed for the most extreme industrial applications—nothing else!

unmatched
mechanical
and chemical
strength

PANEL

Why is the STREAMLINE Composite Resin Piping so durable?

- Withstands temperatures up to 210 °F / 99 °C without failing
- Resistant to chlorides (SWFGD), dairy, food & beverage, pulp & paper, oil & gas, and most other chemical applications
- Will not rust or corrode, giving it the longest life expectancy of any piping in the market
- A must for highly corrosive industrial wastewater treatment plants
