We know industrial.

Comprehensive industrial design, systems and service

EDI's Industrial Aeration Solutions® division has been the worldwide leader for industrial wastewater aeration needs since 1975. We have designed, installed and serviced aeration systems for: Pulp & Paper, Food & Beverage (Beef, Pork, Poultry, Dairy), Pharmaceutical, Chemical, Petroleum, Oil & Gas among others.

EDI provides municipal and industrial treatment solutions in over 100 countries, has 7000+ installations and treats the wastewater needs for more than 400 million people.
